Strengths:

- High sociability skill
- Good team-player
- Great organizational and self-discipline skills

Experience:

No commercial work experience yet.

SoftServe IT academy

.Net development course (team work)

26 January 2020 – 26 April 2020 (3 month)

- **Scrum board analog**

Project: <https://dev.azure.com/alkohol4ykk/IF-106.Net>

My responsibilities:

- Develop realization of Repository Pattern
 - Create 3-x Layered structure of WebApi
 - Write a unit-tests for repository and business logic layers
 - Providing verification inside business logic layer
 - Developed controller and business logic
 - Providing CRUD operations
 - Create an entity in database, code-first approach, migrations
 - Creating test cases
 - Providing client-side interface, user interface
 - Working in Agile/Scrum planning
 - Code optimizations and review
-

University tasks from programming-course

- ***My own to-do app. (In progress)***

Project: github.com/vzdendyak/ZDone

My responsibilities:

- Code-first approach
- Provide Asp.Core Web-API for server-side and Angular 8 for client side, EntityFramework as ORM
- Create entities classes on server and client side
- Three-layer structure
- Provide repository for each entity
- Provide business logic for each entity
- Provide controller for each entity
- Provide components and module structure on angular project
- Manage MsSql database, migrations
- Provide CRUD logic, and RESTful api

- **First Web-application. My own messenger**
Project: github.com/vzdendyak/MyWebSite

My responsibilities:

- Code-first approach
- Create entities for application
- Provide Controller's logic
- Provide SignalR extension
- Create an User-Interface on client-side
- Write jquery scripts
- Manage database, provide context

- **Desktop application to manage database in library**

Project: github.com/vzdendyak/LibraryBase

My responsibilities:

- Create a structure of user-interface
- Database-first approach
- Creating queries without any ORM (only using sql syntax)
- Providing logic for CRUD operations with entity
- Provide protection from Sql-injections

Education:

Vasyl Stefanyk Precarpathian National University, Ivano Frankivsk,
Bachelor degree, Computer Science - [2018-2022]

SoftServe IT Academy:

.Net Development Course – [26.01.2020 – 26.04.2020]
